ROADMAP

Our Mission?

Sugar Labs Sugar Labs® is a US-based 501(c)(3) nonprofit organization with a global mission to create educational opportunities in technology to youth around the world. Volunteer mentors and contributors work

About

together to develop activity-focused software for children. All software is developed with learning as the primary goal, necessitating the need for source code to be published publicly for study, licensed under a Free/Libre license for explicit permission to share and remix, and openly worked upon within a community where students are invited to make contributions, under guidance of experienced mentors. Donations to support the work of Sugar Labs can be made at https://www.sugarlabs.org/donate/.

people who share common goals while maintaining independence, so that each

Collective Goals, Individual Freedom

In order for Sugar Labs to be successful, it

needs the participation of a large number of

Sugar Labs:

participant has the ability to act independently. For these reasons, Sugar Labs subscribers to the principles described here, which are author's own translation of an original text in Spanish.

Projects

Sugar Labs is working on a few projects focused on delivering specific goals in a defined

time period
